Trespassing in restricted areas is dangerous!

Trespassing continues to be a major problem in the restricted areas due to the munitions and explosives found there, both in the water and on land. We are actively taking measures to lower the risk, but still those who trespass expose themselves and their families to grave danger.

To protect Vieques residents and visitors, the roads leading to the areas that contain munitions and explosives have been blocked and identified with warning signs.

The water that surrounds the former training area is a danger zone.

For your safety, do not anchor your boats or visit the beaches in this danger zone.

Vieques Restoration Advisory Board

The Vieques Restoration Advisory Board (RAB) is an advisory group of community members who meet about every three months.

RAB meetings provide an opportunity for two-way communication between the local community and the U.S. and Puerto Rican government agencies that are participating in the Vieques restoration.

NAVFAC Atlantic invites interested members of the public to participate in RAB meetings. We will discuss the progress of the environmental cleanup and the munitions response activities on Vieques.

RAB meeting - September 11

6:00 to 9:00 PM

Vieques Multiple Use Center
Antonio Mellado Street – (next to the Plaza)

We hope to see you there!
